INDEPENDENT AUDITOR'S REPORT

To the City Council
City of Lamar, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lamar, Missouri as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City of Lamar, Missouri's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lamar, Missouri, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Lamar, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Lamar, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Lamar, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Lamar, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in net pension liability and related ratios, and schedule of pension plan contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the combining of nonmajor funds but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Lamar's financial performance provides an overview of the City's financial activities for the year ended June 30, 2022. Please read it in conjunction with the City's financial statements, which begin on page 12.

Financial Highlights and Significant Events

- The City's net position was \$ 43,915,594 at the close of fiscal year ending June 30, 2022. Of this amount, \$ 11,489,611 was unrestricted net position and may be used to meet the government's ongoing obligation to its citizens and creditors. Unrestricted net position increased \$ 3,534,425 from the prior year.
- Change in net position of governmental activities increased \$ 1,466,353 to a year ending balance of \$ 13,886,543 Change in the net position of the proprietary funds, which includes electric, water and wastewater systems and sanitation showed an increase of \$ 3,134,015 to a year-end balance of \$ 30,029,051.
- The City's total long-term debt decreased \$ 948,225.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Lamar's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Lamar's finances, in a manner like private-sector business. All governmental and business-type activities are consolidated to arrive at a total for the City. There are two government-wide statements, the statement of net position and the statement of activities, which are described as follows:

The Statement of Net Position presents information on all the City's net assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the current fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Lamar that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, judiciary, public safety, transportation, culture, and recreation. The business-type activities include the waterworks, wastewater, sanitation, and electric systems.

The government-wide financial statements can be found on pages 12 and 13 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control and accountability over resources that have been segregated for specific activities or objectives. Some funds are required to be established by State law, while others are established to help control and manage money for a particular purpose. The City's two kinds of funds are as follows:

- Governmental funds – Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the accrual method of accounting, which measures cash when earned and expenditures incurred. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent soon to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements.

The City of Lamar adopts an annual budget for its governmental funds and a comparison of actual to budget has been provided to demonstrate compliance with the authorized budget. The Statement of Revenues, Expenditures and Changes in Fund Balance on a Budgetary Basis can be found on page 51.

The basic governmental fund financial statements (Balance Sheet and Statement of Revenues, Expenditures and Change in Fund Balance) can be found on pages 14 and 16 of this report.

- Proprietary funds – When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise fund is the same as the business-type activities we report in the government-wide statements but provides more detail and additional information, such as cash flows. The basic proprietary fund financial statements (Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position and Statement of Cash Flows) can be found on pages 18-20 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21-50 of this report.

Required Supplemental Information

In addition to the basic financial statements the required supplementary information can be found on pages 51-53 of this report.

Supplemental Information

In addition to the basic financial statements, the supplementary information can be found on pages 54-55 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position and an important determinant of its ability to finance services in the future. The City's governmental activities net assets exceeded liabilities by \$ 13.9 million on June 30, 2022. This was an increase of \$ 1,466,359 from the prior year.

The City's business-type activities net position exceeded liabilities by \$ 30.0 million on June 30, 2022. This increase was due to growth in the proprietary funds by \$ 3,134,015 of which was from normal operations.

**City of Lamar
Net Position**

As of June 30, 2022, net position changed as follows:

	Governmental Activities		Business-type Activities	
	2022	2021	2022	2021
Current Assets	\$ 4,125,032	\$ 3,539,624	\$ 10,442,594	\$ 7,474,595
Capital Assets	10,557,889	10,323,455	23,251,408	23,263,406
Total Assets	<u>14,682,921</u>	<u>13,863,079</u>	<u>33,694,002</u>	<u>30,738,001</u>
Total deferred outflows of resources	<u>59,457</u>	<u>188,297</u>	<u>6,440</u>	<u>85,476</u>
Current Liabilities	90,958	583,715	951,575	271,044
Long-term Debt	152,982	986,620	2,254,149	3,627,931
Total Liabilities	<u>243,940</u>	<u>1,570,335</u>	<u>3,205,724</u>	<u>3,898,975</u>
Total deferred inflows of resources	<u>611,895</u>	<u>60,851</u>	<u>465,667</u>	<u>29,466</u>
Net Position:				
Net investment in capital assets	10,504,990	10,283,131	21,915,530	21,071,403
Restricted	-	-	5,463	5,506
Unrestricted	3,381,553	2,137,059	8,108,058	5,818,127
Total net position	<u>\$ 13,886,543</u>	<u>\$ 12,420,190</u>	<u>\$ 30,029,051</u>	<u>\$ 26,895,036</u>

By far, the largest portion of the City of Lamar's net position (73.8%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City of Lamar uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City of Lamar's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of Lamar's net position (.01%) represent resources that are subject to external restrictions on how they may be used. The remaining balance of \$ 11,489,611 is unrestricted and may be used to meet the government's ongoing obligations to its citizens and creditors.

The City of Lamar's overall net position increased \$ 4,582,368 from the prior fiscal year. The reason for this overall increase is discussed in the following sections for governmental activities and business-type activities.

City of Lamar				
Changes in Net Position				
	Governmental Activities		Business-type Activities	
	2022	2021	2022	2021
Revenues:				
Program Revenues:				
Charges for services	\$ 213,993	\$ 287,482	\$ 12,275,775	\$ 12,039,476

Increases before transfers	973,752	363,333	3,626,616	2,623,919
Transfers	492,601	454,929	(492,601)	(454,929)
Increase in Net Position	1,466,353	818,262	3,134,015	2,168,990
Net Position, beginning	12,420,190	11,601,928	26,895,036	24,726,046
Net Position, ending	\$ 13,886,543	\$ 12,420,190	\$ 30,029,051	\$ 26,895,036

Governmental Activities. During the current fiscal year, net position for governmental activities increased \$ 1,448,353

Business-type Activities. Business-type activities showed improvement in operating income due to a rate increase in both water and sewer funds while operating expenses stayed relatively consistent and in addition the City did not experience a fuel surcharge for electricity purchased.

Governmental Funds

The focus of the City of Lamar's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. Unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Some significant items are presented below for comparison and analysis:

	Percent of Total	2022	2021	Change	
				Amount	%
Revenues					
Property taxes	12.72%	\$ 590,842	\$ 589,550	\$ 1,292	0.22%

Grants	14.34%	666,160	135,161	530,999	392.86%
Donations	1.15%	53,479	30,336	23,143	76.29%
Rents	0.54%	24,925	28,979	(4,054)	-13.99%
Miscellaneous	1.36%	63,331	30,294	33,037	109.05%
Total	100.00%	4,645,125	3,838,640	806,485	21.01%
Expenditures:					
General government	8.12%	332,531	227,500	105,031	46.17%
Public safety	35.45%	1,451,075	1,414,981	36,094	2.55%
Building inspection	1.66%	68,105	61,704	6,401	10.37%
Streets	11.04%	451,917	416,249	35,668	8.57%
Auditorium & Mem. Hall	2.69%	110,262	106,255	4,007	3.77%
Parks	9.48%	388,125	425,358	(37,233)	-8.75%
Taxi service	3.40%	139,177	118,772	20,405	17.18%
Airport	0.59%	24,133	71,310	(47,177)	-66.16%
Capital outlay	25.22%	1,032,330	1,113,962	(81,632)	-7.33%
Debt service	2.33%	95,547	95,548	(1)	-
Total	100.00%	4,093,202	4,051,639	41,563	1.03%

Most notable change was the three sales tax issues experience an 14.2% increase thus totaling the \$ 268,538 overall increase along with increase in grant funding of \$ 530,999.

Business-type Activities

In reviewing the current to the past year on the waterworks, wastewater, sanitation, and electric fund, we noted the following:

	2022	2021	Change	
			Amount	%
Waterworks and Wastewater Funds				
Revenue	\$ 2,009,999	\$ 2,057,351	\$ (47,352)	-2.30%
Expense net of Depreciation and interfund	1,108,607	1,110,569	(1,962)	-0.18%
Operating Income	524,036	581,490	(57,454)	-9.88%
Sanitation Fund				
Revenue	532,571	548,704	(16,133)	-2.94%
Expense net of Depreciation and interfund	394,472	376,203	18,269	4.86%
Operating Income (Loss)	96,171	130,573	(34,402)	-26.35%
Electric Fund				
Revenue	9,761,828	9,478,904	282,924	2.98%
Expense net of Depreciation and interfund	2,286,152	2,519,030	(232,878)	-9.24%
Cost of power purchased	3,899,186	4,563,106	(663,920)	-14.55%
Operating Income	2,990,549	1,932,474	1,058,075	54.75%

Revenues in the Business-Type Activities showed an increase in operating net income of \$ 961,369. Charges for services increased \$ 219,442 due to an increase in demand rate for commercial and industrial. The operation and maintenance costs for the methane gas power plant and a decrease of \$ 663,920 in the cost of power purchased.

GENERAL FUND BUDGETARY HIGHLIGHTS

Budget and actual comparison is provided in the Budgetary Comparison Schedule-General Fund. This schedule shows the original/final budget, actual amounts, and the variances between actual and final budget amounts. There was no change in the fund balance for the General Fund; however, the fund realized a surplus of \$ 559,428 due to less expenditures than budgeted in all departments and with added increase in sales tax revenue.

CAPITAL AND DEBT ADMINISTRATION

Additional information on the City's long-term debt can be found in Note E of the notes to the financial statements of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City anticipates revenues and expenditures for the 2022-2023 fiscal year to remain constant with no planned changes in rates or operational expenses. Capital outlay expenditures for the upcoming year expect the City's water department to begin the planning for a second drinking water well. A second drinking water well is required for redundancy and backup supply. The expected cost of the well is to be \$ 1,202,825. The renovating of the new City Hall will continue into 2022-2023. \$ 335,000 has been budgeted for the continued renovations. The building will serve as City Hall upon completion. Plans for further capital expenditures include acquisition and installation of automatic read water meters, replacing old cast iron water lines, upgrading the electrical system and improvements of the wastewater collection system.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Clerk, 1104 Broadway, Lamar, Missouri 64759.

"Excellent"

The accompanying notes are an integral part of these financial statements.

CITY OF LAMAR, MISSOURI
RECONCILIATION OF STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2022

Net change in fund balances--total governmental funds \$ 1,077,424

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital expenditures	1,032,330
Less: Current year depreciation	(797,897)

Under the modified accrual basis of accounting used in the governmental funds, revenues are not recognized until funds are measurable and available to finance current expenditures. In the statement of activities, however, which is presented on the accrual basis, revenues are reported regardless of when financial resources are available. This is the net adjustment to property tax revenue in converting to the full accrual basis.

743

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.

Compensated absences	(13,019)
Principal payment on Note Payable	92,100
Net change in pension expense	74,672
	74,672

Change in net position of governmental activities	\$ 1,466,353
---	--------------

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Lamar, Missouri, (the City) were prepared in accordance with accounting principles generally accepted in the United States of America for governmental entities (U.S. GAAP). The following summary of the more significant policies of the City is presented to assist the reader in interpreting these financial statements and should be viewed as an integral part of this report.

THE REPORTING ENTITY

Entity status for financial reporting purposes is governed by Governmental Accounting Standards Board (GASB). The GASB is the standard-setting body for the establishment of GAAP in governmental entities. The financial statements of the City present the financial activities of the City and any component units. The City is the primary government unit. Component units are those entities which are financially accountable to the primary government, either because the City appoints a voting majority of the component unit's Board or because the component unit will provide a financial benefit or impose a financial burden on the City. The City does not have any component units.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Government-wide financial statements do not provide information by fund but distinguish between the City's governmental activities and business-type activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements. Separate financial statements are provided for governmental funds and proprietary funds. Separate columns are presented for each major governmental fund and for each major enterprise fund. Non-major funds are aggregated and presented in a single column labeled "Nonmajor Governmental Funds."

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Fund Types: Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use and balances of the City's expendable financial resources and the related liabilities (other than those in proprietary funds) are accounted for through governmental funds. The following are the City's major governmental funds:

General Fund – The General Fund is the government's primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

Proprietary Fund Types: Proprietary funds are used to account for the City's ongoing activities that are similar to those often found in the private sector. The following are the City's major proprietary funds:

Waterworks and Wastewater System Fund – Established to account for the construction and operations of the City's Waterworks and Wastewater systems.

Electrical System Fund – Established to account for construction and operations of the City's electric system.

Non-Major Governmental Funds:

Special Revenue Funds-Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The City has four special revenue funds including:

Memorial Hall Fund – Established to account for property tax revenue used to operate and maintain Memorial Hall.

Park Fund – Established to account for property tax revenue used to operate and maintain City parks.

Transportation Sales Tax Fund – Established to account for ½ cent sales tax revenue used to operate and maintain City streets.

Taxi Fund – Established to account for taxi fees and grant revenue used to operate and maintain City taxi system.

Capital Project Funds-Capital Project Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The City has one special revenue fund including:

Capital Improvement Sales Tax Fund – Established to account for ½ cent sales tax revenue used for capital improvements for the City of Lamar.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Non-Major Proprietary Funds:

Proprietary Funds-Proprietary Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The City has one non-major proprietary fund.

Sanitation Fund – Established to account for refuse fees used to operate and maintain City refuse collection system.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recognized at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the City gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable, and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims, and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, sales tax, intergovernmental taxes, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's Waterworks, Wastewater, and Electric function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions, including special assessments. General revenues include all taxes.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - continued

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation, the principal operating revenues of the enterprise fund are charges for services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

ASSETS, LIABILITIES AND NET POSITION/FUND BALANCE

Cash and Cash Equivalents

The City pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash account is available to meet current operating requirements.

Cash balances from the majority of funds recorded as restricted accounts are pooled for investment purposes. Earnings from such investments are allocated to the respective funds based on applicable cash participation by each fund. The investment pools are managed such that all participating funds have the ability to deposit and withdraw cash as if they were demand deposit accounts, and therefore all balances representing participants' equity in the investment pools are classified as cash equivalents for purposes of these statements. For investments which are held separately from the pools, those which are highly liquid (including restricted assets) with an original or remaining maturity of 90 days or less when purchased are considered to be cash equivalents.

Statement of Cash Flows

For the purpose of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Investments

Missouri State statutes authorize the City to invest in obligations of the U.S. Treasury, federal agencies, commercial paper, corporate bonds, and repurchase agreements. Investments consist of \$ 1,617,405 certificates of deposits with a maturity of greater than 90 days stated at cost which equals fair value.

Due to and due from other funds

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounts Receivable

All receivables were stated at gross because the amounts were collected within the following 60 days except for electric, waterworks and wastewater utilities receivable which had allowances of \$ 2,934 electric, \$ 2,925 for the waterworks and wastewater system and \$ 1,966 for sanitation.

Inventories

Inventories consist of consumable supplies and are stated at cost, using the first-in/first-out (FIFO) method. Year-end adjustments are made to the recorded non-spendable fund balance and to the inventory account based on the physical inventory available at year end.

Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Restricted assets

Enterprise Funds, because of certain bond covenants, are required to establish and maintain prescribed amount of resources (consisting of cash and temporary investments) that can be used only to service outstanding debt. The bond reserve account is to be used only to pay bonds at maturity or interest as it becomes due and to the extent other funds are not available for this purpose.

Certain General Fund monies are classified as restricted assets on the Statement of Net Position and Balance Sheet because their use is limited by covenants of the capital lease agreement. The reserve account is to be used solely for the purpose of making lease payments on the applicable due dates when and to the extent other funds are not available for this purpose. The lease payment account is used only for the payment of the principal and interest on the lease obligation.

Capital Assets and Depreciation

Capital assets, which include property, equipment, and infrastructure (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial cost of more than \$ 5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Depreciation has been provided over the estimated useful lives using the straight-line method of depreciation. The estimated useful lives for each major class of depreciable capital assets are as follows:

Buildings	7-40 years
Site improvements	7-55 years
Streets	20-40 years
Furniture and equipment	7-20 years
Vehicles	5-10 years

Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At this time, the City has two items that meet the definition of deferred outflows of resources. One is the deferred charge on refunding reported in the government-wide statement of net position and the statement of net position for proprietary funds.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Inflows of Resources/Unavailable Revenue

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. In the Governmental Funds the item reported as a deferred inflow of resources arises only under a modified accrual basis of accounting. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

The Business-type Activities and Proprietary Funds report unearned revenue which is grant funds received but have not been spent in accordance with grant policies. Expected to be expended in the next fiscal year.

In the General Fund, Memorial Hall and Park Fund property taxes expected to be collected in excess of 60 days is shown as a Deferred Inflow of Resources. These amounts are not considered part of the budget for the next fiscal year and therefore represent a reconciling item between Governmental Activities and Governmental Funds.

At this time, the City has one item that meets the definition of deferred inflows of resources. It is the amount related to pension inflows as per GASB 68.

Vacation and sick leave

City employees are entitled to certain compensated absences based on their length of employment. All vacation pay is paid within the current year and does not accumulate.

Sick leave policy allows employees up to 10 days per year. When not used, sick leave may accumulate up to 60 days. Upon retirement, employees will be paid for up to 60 days of accumulated unused sick leave at their current rate of pay. The retiring employee must be at least 59 ½ years old or have 20 years of service with the City to be eligible.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri Local Government Employees Retirement System (LAGERS) and additions to/deductions from LAGERS fiduciary net position have been determined on the same basis as they are reported by LAGERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-term Debt

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt is reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, and losses on refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payables are reported net of the applicable bond premium or discount. Bond issuance costs are covered during the current period.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances-Governmental Funds

As of June 30, 2022, fund balances of the governmental funds are classified as follows:

Non-spendable-This classification includes amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact.

Restricted-This classification includes amounts that can be spent only for specific purposes because of the City Charter, City Code, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed-This classification includes amounts that can be used only for specific purposes determined by a formal action by the City Council. Such formal action may be in the form of an ordinance and may only be modified or rescinded by a subsequent formal action.

Assigned-This classification includes amounts that are intended by the City to be used for a specific purpose but are neither restricted nor committed. Assignments may be made only by the government body or official.

Unassigned- All amounts not included in the other fund balance classifications. The General Fund shall be the only fund to report a positive unassigned fund balance. All other governmental funds may report negative unassigned fund balance.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances-Governmental Funds - continued

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council has provided otherwise in its commitment or assigned actions.

The City has no formal minimum fund balance policies or any formal stabilization arrangements in place.

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of cost of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. This net investment in capital assets amount also is adjusted by any bond issuance deferral amounts. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net positions are reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Proprietary Fund Types-Business Type Activities

The following schedule shows the breakdown of reserves for capital improvements:

<u>Fund</u>	
Electric System	<u>\$ 5,463</u>

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

Revenue Recognition - Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and are due and payable at that time. All unpaid taxes levied October 1 become delinquent January 1, of the following year. Valuation for 2021 was \$ 57,833,001 with the levy set at \$ 1.0159 broken down \$.6559 for General purposes, \$.1800 each for Memorial Hall and Parks and Recreation.

Revenue Recognition - Sales Tax authorizations

Sales tax authorizations consist of a one-cent general sale recorded in the General Fund (\$888,321), a one-half cent transportation sales tax to be used for street purposes in the Transportation Sales Tax Fund (\$ 418,677), and a one-half cent capital improvement sales tax to be used for capital improvements for the City in the Capital Improvement Sales Tax Fund (\$ 418,621). A one-half cent Park/Storm water sales tax was implemented April 1, 2021. It is allocated 95% (\$ 409,631) for Park and 5% (\$ 21,559) for Storm Water.

Fee in Lieu of Taxes

The Electric Fund makes an annual payment in lieu of taxes to the General Fund, which is based on a percentage of sales of utilities. That payment is reflected as a transfer on the statement of revenues, expenses, and changes in net position.

Revenue Recognition – Franchise taxes

The City includes under franchise taxes amounts received from telephone companies, gas companies (\$ 135,649) and land fill royalty gate fee (\$ 482,253) for fiscal year end.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets and Budgetary Accounting

The City is required by Missouri State Law RSMo 105.485 to prepare a budget each year based on estimates of revenues and expected expenditures which include at a minimum a budget message, budget summary, schedule with prior year comparison of estimated revenue and expenditures, schedule of bonded debt obligations and budget approval letter. The accompanying statement of revenues, expenditures, and changes in fund balance-budget and actual includes the budgeted expenditures for the year, along with management's estimate of revenues for the year for both the original budget and the final budget which is reflective of any amendments throughout the fiscal year. The legal level of budgetary control is at the total fund level.

Budgetary basis of accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (modified accrual basis) for all governmental funds.

Excess of expenditures over appropriations

For the year ended June 30, 2022, expenditures were within the appropriations for the General Fund.

Compliance with Bond Reserves

The City was in compliance with required bonded debt reserves for the year.

Legal Debt Margin

The City's assessed value supports a general obligation bond limit of \$ 5,783,300. The City did not have any general obligation bonds outstanding as of June 30, 2022.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

DETAILED NOTES ON ALL FUNDS

NOTE B – DEPOSITS AND INVESTMENTS

Deposits. Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned, or the City will not be able to recover collateral securities in the possession of an outside party. The City's bank deposits are required by state law to be secured by the deposit of certain securities specified at RSMo 30.270 with the City or trustee institution. The value of the securities must amount to the total of the City's cash not insured by the Federal Deposit Insurance Corporation.

As of June 30, 2022, the City's bank balances including certificate of deposits were entirely secured or collateralized with securities held by the City or by its agent in the City's name.

Investment Policies

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City does have a written investment policy covering credit risk.

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The City's policy is to limit the length of investments to meet cash flow requirements for ongoing operations, thereby avoiding the need to sell securities before maturity.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City policy is to invest in only those instruments approved by the State of Missouri which have minimal risk.

Custodial Credit Risk is the risk that in the event of a broker/agent failure, securities that are uninsured and not registered in the name of the City and are held by either the counterparty to the transaction or the counterparty's trust department or agent but not in the government's name will not be returned to the City. The City does have a written investment policy on custodial credit risk in which all investments are either insured or registered in the City's name and held by the City's agent.

	<u>\$ 52,899</u>	<u>\$ 1,148</u>	<u>\$ 54,047</u>

NOTE F – RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains commercial insurance coverage for property damage and various Missouri Official's bonds. Management believes coverage is sufficient to preclude any significant uninsured losses to the City. In the past three years, the City had no losses that exceeded commercial insurance coverage.

NOTE G – GRANTS

Intergovernmental awards received by the City are subject to audit and adjustment by the grantor agencies. If grant revenues are received for expenditures, which are subsequently disallowed, the City may be required to repay the revenues to the funding agencies. No disallowed costs have resulted from this audit and management believes that further examination will not result in any disallowed costs.

NOTE H – DEFINED BENEFIT PENSION PLAN

The City of Lamar participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee retirement plan for units of local government which is legally separate and fiscally independent of the State of Missouri.

The retirement system covers all full-time City employees.

Plan description

The City of Lamar’s defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. The City of Lamar participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits provided

LAGERS provides retirement, death, and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire at or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

	2021 Valuation
Benefit Multiplier:	1.50%
Final Average Salary:	5 years
Member Contributions:	0%

Benefit terms provide for annual post retirement adjustments to each member’s retirement allowance subsequent to the member’s retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE H – DEFINED BENEFIT PENSION PLAN (Continued)

Employees covered by benefit terms

On June 30, 2022, the following employees were covered by the benefits terms:

Inactive employees or beneficiaries currently receiving benefits	36
Inactive employees entitled to but not yet receiving benefits	30
Active employees	67
Total	133

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employers' contribution rates are 23.0 % General, 14.2% Fire and 13.4% Police of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2022.

Actuarial assumptions

The total pension liability in the February 28, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75% wage inflation; 2.25% price inflation
Salary increase	2.75% to 6.75% including wage inflation
Investment rate of return	7.00% net of investment expense

Mortality rates were based on the healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees' mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2021. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE H – DEFINED BENEFIT PENSION PLAN (Continued)

The actuarial assumptions used in the February 28, 2022, valuation were based on the results of a 5-year experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	48.00%	4.81%
Fixed Income	28.50%	1.72%
Real Assets	23.50%	3.42%

Discount rate

The discount rate used to measure the total pension liability is 7.00%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

NOTE I – CONTINGENCIES

Litigation – Various claims and lawsuits are pending against the City. In the opinion of the City’s management, the potential loss on all claims and lawsuits will not be significant to the City’s financial statements.

Landfill Closures – The City of Lamar, Missouri has entered into two contracts of obligation with the State of Missouri-Department of Natural Resources in regard to sanitary landfills. The City is responsible for closure and post-closure costs of these landfills up to the following contract amounts.

Permit #101102	\$ 621,863
Permit #101103	<u>5,536,304</u>
	<u>\$ 6,158,167</u>

Permit #101102 is in regard to a landfill property that has been closed and no further post-closure costs are anticipated by the City’s management. Permit #101103 is in regard to landfill property currently owned and operated by Browning-Ferris Industries of St. Louis, Inc. (BFI). BFI has agreed to pay closure and post-closure costs of said landfill. The City’s possible closure and post-closure costs of these properties are dependent upon future events and cannot be determined at this time. Therefore, no liability for such costs has been recognized in the financial statements.

NOTE J – INTERFUND TRANSFERS

Interfund transfers as follows were used for operations as set forth in the approved budget:

Operating transfers:	To	From
Electric system fund - fee in lieu of tax	\$ -	\$ 492,601
General fund - fee in lieu of tax	492,601	-
	\$ 492,601	\$ 492,601

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE K – DUE TO AND FROM INTERFUND BALANCES

Amounts shown as Due To represent negative cash balances in the pool of cash accounts which represents amounts owed to the funds cash was drawn upon.

NOTE L – LANDFILL GAS

The City captures methane gas produced by the landfill and bills it out \$ 15.00 per megawatt hours up to an increase to \$ 25.00 per megawatt. The amount earned is then applied to energy purchased by the City for its Electric Department.

NOTE M – COMMITMENTS ON POWER PURCHASE

The City is a member of the Missouri Joint Municipal Electric Utility Commission (MJMEUC). Lamar Municipal Utilities City Council represents the City with respect to MJMEUC matters. MJMEUC manages a power pool known as Mid-Missouri Municipal Power Energy Pool (“MMMPEP”), of which the City is a member. All MMMPEP members (including the City) have an agreement (the “MMMPEP Agreement”) with MJMEUC for the purchase of electric capacity and energy and transmission from MJMEUC. The MMMPEP Agreement requires MJMEUC to supply the full energy requirements of the City under the terms of a long-term agreement expiring May 31, 2028.

MMMPEP operations are governed by a committee (“Pool Committee”) consisting of one representative from each MMMPEP member and is comprised of 13 members as of June 30, 2022. The Pool Committee is charged with determining policy within the scope of the agreement; including setting rates for all services provided by MJMEUC to MMMPEP members. These rates must include recovery of all MJMEUC’s costs incurred in connection with acquiring, providing, arranging, or financing the provision of full requirements service to MMMPEP members. These rates include capacity and energy charges MJMEUC incurs under supply and transmission agreements and MJMEUC’s related administrative costs.

The rates are established so as to charge each MMMPEP member its proportionate share of all costs associated with MJMEUC’s performance under the MMMPEP Agreement. Charges based on such rates are assessed and billed monthly.

MJMEUC billed the MMMPEP members, based upon their pro-rata share and an estimated monthly usage, a total of \$ 4,304,330 to fund working capital for MMMPEP activities. This amount is expected to be refunded to the members at the conclusion of the contract term upon final settlement of all charges.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE M – COMMITMENTS ON POWER PURCHASE (Continued)

To meet the power and energy requirements of the City and the other MMMPEP members, MJMEUC presently obtains power and energy from the following resources: (i) power purchased under long-term firm energy contracts, unit-contingent energy contracts and interruptible contracts; and (ii) spot market purchases. The City purchases its full energy requirements from MJMEUC pursuant to the MMMPEP Agreement but does not have any ownership interest in MJMEUC's resources.

In the event a MMMPEP member would cancel or default on the MMMPEP Agreement without first assigning its rights and interest to a new member accepted by MJMEUC, the member would remain responsible for the unavoidable costs owed by MJMEUC under supply and transmission service agreements, including its share of all remaining fixed costs and its share of must-take or minimum-take energy (MTE). If possible, MJMEUC would utilize or sell the member's MTE in exchange for providing the member a credit or offset equal to the fair value of the MTE up to the amount of the member's obligation. As a result, the member would have a financial obligation after cancellation or default in the event that the fair value of the MTE is less than the member's allocated share of MJMEUC's unavoidable costs with respect to the resource obligations at the time of cancellation or default. Since the amount of the cancelling or defaulting member's obligation would depend on MJMEUC's unavoidable costs after cancellation or default and the fair value of the MTE at such times in the future, the amount of the obligation is not reasonably determinable. Currently, Lamar Municipal Utilities has no plans or intentions to begin cancellation proceedings or expects to default on its obligation.

NOTE N – FUTURE ACCOUNTING PRONOUNCEMENTS

The accounting principles governing the reported amounts, presentation and related disclosures are subject to change from time to time based on new pronouncements and/or rules issued by various governing bodies. The Governmental Accounting Standards Board (GASB) is responsible for establishing generally accepted accounting principles (GAAP) for state and local governments.

The City adopted the following statements during the year ended June 30, 2022:

GASB Statement No. 75, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of this Statement is to improve accounting and financial reporting by state and local governments for OPEB. This Statement replaces the requirements of Statements No. 45 and No. 57. The Statement is effective for periods beginning after June 15, 2018.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE N- FUTURE ACCOUNTING PRONOUNCEMENTS (Continued)

GASB Statement No. 85, *Omnibus 2017 Activities*, issued March 2017, will be effective for the City beginning after June 15, 2018. This Statement is to address practice issues that have been identified during implementation and application of certain GASB statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]).

GASB Statement No. 86, *Certain Debt Extinguishment Issues*, issued May 2018, will be effective for the City beginning after June 15, 2018. This Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources other than the proceeds of refunding debt-are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

GASB Statement No. 90, *Majority Equity Interests-An Amendment of GASB Statements No. 14 and No. 61*, issued August 2018, will be effective for the City for reporting periods beginning after December 15, 2018. The primary objective of this Statement is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

GASB Statement No. 84, *Fiduciary Activities*, issued January 2018, will be effective for the City beginning after December 15, 2018. This Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, issued April 2018, will be effective for the City for reporting periods beginning after June 15, 2018. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

The City did not have any changes to report for the year ending June 30, 2022, upon adopting GASB 75, 84, 85, 86, 88 and 90.

CITY OF LAMAR, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE N- FUTURE ACCOUNTING PRONOUNCEMENTS (Continued)

The Statements which might impact the City are as follows:

GASB Statement No. 83, *Certain Asset Retirement Obligations*, issued November 2016, will be effective for the City beginning with its fiscal year ending December 31, 2019. This Statement is to provide financial statement users with information about assets retirement obligations (AROs) that were not addressed in GASB standards establishing uniform accounting and financial reporting requirement for these obligations.

GASB Statement No. 87, *Leases*, issued June 2018, will be effective for the City beginning after December 25, 2019. This Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financing of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

GASB Statement No. 89, *Accounting for Interest Costs Incurred before the End of a Construction Period*, issued June 2018, will be effective for the City for reporting periods beginning after December 15, 2019. The primary objective of this Statement is (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period

The City's management has not yet determined the effect these statements will have on the City's financial statements.

NOTE M- UNEARNED REVENUE-ARPA

For the current fiscal year, the City received an ARPA grant for which expenditures had not been made. Therefore, the funds received are reported as "Unearned Revenue" until such time as the funds are expended.

NOTES TO SCHEDULE OF CONTRIBUTIONS

Valuation Date: February 29, 2021

Notes: The roll-forward of total pension liability from February 28, 2021 to June 30, 2021 reflects expected service cost and interest reduced by actual benefit payments.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal and Modified Terminal Funding.
Amortization Method	A level percentage of payroll amortization method is used to amortize the UAAL over a closed period of years. If the UAAL (excluding the UAAL associated with benefit changes) is negative, then this amount is amortized over the greater of (i) the remaining initial amortization period or (ii) 15 years.
Remaining Amortization Period	Multiple bases from 9 to 23 years
Asset Valuation Method	5-Year smoothed market: 20% corridor
Inflation	2.75% wage inflation; 2.25% price inflation
Salary increases	2.75% to 6.75% including wage inflation
Investment Rate of Return	7.00%, net of investment expenses
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition.
Mortality	The healthy retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubG-2010 Retiree Mortality Table for males and females. The disabled retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubNS-2010 Disabled Retiree Mortality Table for males and females. The pre-retirement mortality tables used were 75% of the PubG-2010 Employee Mortality Table for males and females of General groups and 75% of the PubS-2010 Employee Mortality Table for males and females of Police, Fire and Public Safety groups.

Mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scale to the above described tables.
